## 描述

Within the heart of the Han'lanok mountains lies a secret, one that should never be disturbed. With the ability to create stone, this ancient and mysterious thing has been studied for ages. The mages of the Spiritual Circle adapted a part of this creation, which led to the manipulation of rocks.

The inscription on this ancient monolith details an incantation to craft a spell called Earth Boulder. This rock can be thrown at a high speed against your enemies.

This knowledge has taught you how to make this spell.

From mysterious artifacts that were infused with the joy of life and the grief of death, came the mystical fire. A purple flame that could melt objects much faster than normal fire. This art was picked up by the Order of Elvanor, and kept at the arcane library of the Spire. For generations, this strong and powerful magic has only been taught to the High Elders.

The inscription on this ancient monolith details an incantation to craft a spell called Arcane Fire. This is an area of effect ability that causes major damage as well as arcane fire inflictions.

## Lost Sanity

### 描述

In the ancient days of Lord Cal'thoran Rayth and his demise, there was a woman. Her smell was like the first snow of winter, her touch as gentle and warm as the bright sun. Falling for her grace, Cal'thoran became obsessed and laid claim to her, which proved to be his greatest mistake. She was the one who had pulled him in, and now he was bound to her. However, when he had served his purpose, she locked him away far beneath the ground. The silence, the smell of death, and the freezing cold ground was agony. As he was about to accept his death, he soon realized the curse placed upon him. His flesh departed from his body, and his organs withered, but he lived in undeath. For centuries, he was tormented in these pits, where all of his sanity was lost. Eventually, he
